Metal enamel medals and awards

Medals and recognition awards can come any **many style and type**, from cheap promotional product, usually aluminium offset printing, to deluxe gifts and exclusive item in zamac (zinc alloy) with hard enamel and antic finish.

Medals and awards can also be made with a metal base, usually iron or zamac, with doming custom branded part. Metal base with doming is usually for stockers so the metal can be made in high volume cost efficiency and then customized in very small quantity, and rush delivery, with a made to order full color printing dome.

Medals and award come with a large array of attachment and accessories, from lanyard, ribbon, brooch, wood frame and base.
