Led light keychain and screen cleaner #PUFFY

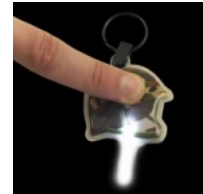

Line of LED light keychain in vinyl with full color offset printing

Puffy most commonly come with LED light and is a very popular LED keychain with both side and all over full color offset printing.

Without LED light the PUFFY works as regular, soft and foamy offset keychain. When printed 1 side only, the PUFFY can also come with a fabric/velvet back in either grey or black color that will work as a screen cleaner for mobile or computer screen.

In this case puffy usually come with a cell phone string attachment and work as a mobile phone charm and accessories.
