Metal enamel bookmark

In order to be thin and flexible, bookmarks are **usually made out of brass material** and in photo etch process.

Bookmarks are mostly just like Christmas ornament (Christmas tree's decoration) and usually come with lot of cutted out space and ornament that can only be produce in photo etch.

More exclusive, highly durable quality bookmark and Christmas decoration are made out of stainless steel (also photo etched) and usually come in silver (nickel) finish.

Finishes available :
