Metal enamel emblems, recognition, and paper weight

Paperweight in metal are usually made in zinc alloy (zamac) both as a weight requirement and because they require bigger size as well as smaller quantity which zamac will achieve in a cost efficient way, as well as allow a lot of flexibility to customer the shape and relief.

Recognition awards and emblems can come any many style and type, from cheap promotional product, usually aluminium offset printing, to deluxe gifts and exclusive item in zamac (zinc alloy) with hard enamel and antic finish.

Finishes available :

Options available
